

13MM+ SYSTEM

SBR RUBBER  
BOUND IN POLYURETHANE

## NRG TRACK BASE

### POLYURETHANE BASE MAT SYSTEM

The solution for those looking for a running track system with most economic value, the NRG Track Base running track system is an all-weather, polyurethane surface that provides any facility a high quality running track surface without the additional cost. The NRG Track Base running track system features a paved-in-place base mat comprised of black SBR or red EPDM rubber granules bound with a single component polyurethane binder.
